EXPERIENCE

1/2009 – Present Knowcean Consulting Inc., Potomac, MD
Senior Systems Administrator
Provide senior technical support for a contract with the US Department of Commerce, Bureau of Industry and Security.

- Support application development environment.
- Build and install new servers, SANs and data backup equipment.
- Upgrade server operating systems and hardware.
- Monitor system alerts and correct problems causing alerts.
- Relocate hardware in the computer rooms and racks.
- Write scripts to automate administrative tasks.
- Write scripts to generate management reports.
- Provide high-level technical support to the help desk.
- Manage automated patch and virus signature update systems.

8/2003 – 10/2008 Lockheed Martin Corporation, Fairfax, VA
(Management Systems Designers, Inc.)

Senior Administrator

Provide senior technical and logistical support on a multi-faceted contract with a US Federal Court. The contract included:

- Evaluation of Microsoft Server 2008 and Windows Vista.
- Full life-cycle build of a server lab environment containing about 80 physical and virtual servers.
- Manage the server lab environment until it was handed off to the client.
- Build and administer a MOSS (SharePoint) system in the lab.

On a previous contract with the same organization:

- Provide technical and managerial support for a project to upgrade about 440 desktop, notebook and Internet terminal workstations to Windows XP.
- Configuration testing of legacy applications on the new hardware and operating system.
- Establish procedures for the efficient roll-out of the new workstations.

2/2002 – 8/2003 Self Employed Arlington, VA

Independent IT Consultant

Engagements included:

- Convert a NetWare multi-server setup to eDirectory 8.7.
- Upgrade NetWare 5.1 to NetWare 6 in a mixed NetWare/Windows Server setup.
- Upgrade GroupWise 5.2 to 6.
- Upgrade Windows NT and 2000 workstations to XP.
- Install Microsoft Office XP on multiple workstations.
- Setup, secure and troubleshoot wireless networks.
- Provide ad hoc support for workstation and server problems.

3/1997 - 2/2002 Raffa & Associates, P.C. Washington, DC

Senior IT Consultant

Raffa & Associates purchased my previous employer (USII).

Provide engineering sales support. Project/team lead for contract life-cycle. Design, build, test and support local and wide area networks. Build Internet connections; Virtual Private Networks; Internet security systems; Web servers; Email servers; SQL servers; file and print servers; patch and virus management servers and other supporting systems. Manage 24/7 monitoring of IT infrastructure.

3/1991 - 3/1997 United Systems Integration, Inc Arlington, VA

Senior Technician

United Systems Integration Incorporated (USII) was acquired by Raffa & Associates, P.C. in March of 1997.

USII was a small systems integration firm. Primary job responsibility was to design, implement and service computer data networks.

USII became an Internet Service Provider (while continuing the other services) in September, 1995.
